# LISTEN TO YOUR EYE...

SHARMILA SAMANT

January 12th - February 6th 2012

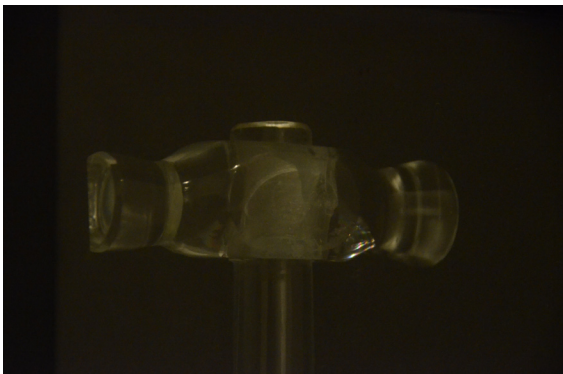

How do we see? What is the hidden agenda behind appearances? Is what Sharmila Samant in her monographic show *Listen to your Eye...* undertakes to investigate. Exhibiting after 15 years in the city of Mumbai, the artist retrospectively draws on her earlier projects continuing her critique of globalisation, genetically modified foods and commentary on current socio-political undertakings. Comprising of sculptural-installation and neon, her new body of work subverts the materiality of the objects in relation to its function bringing to a fore issues of corruption, notions of progress and making visible the detritus in society through a trompe-l'oeil. *Listen to your eyes...* could be viewed as a cautionary note of events taking place in our world that need urgent addressal, as they pose consequences for us if they continue to go unaddressed and unarticulated in the future.

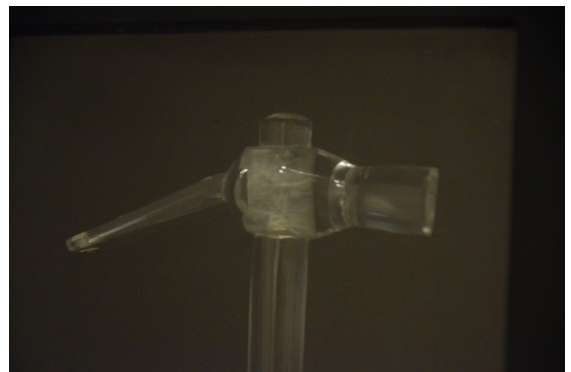

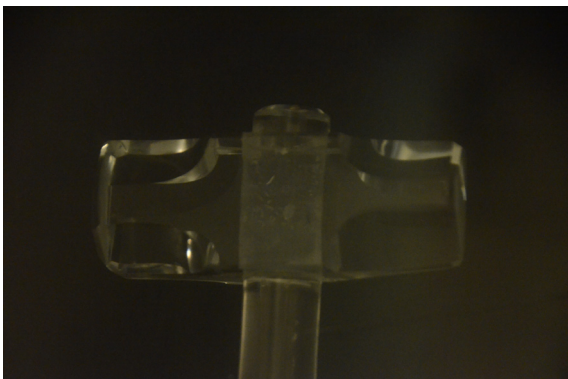

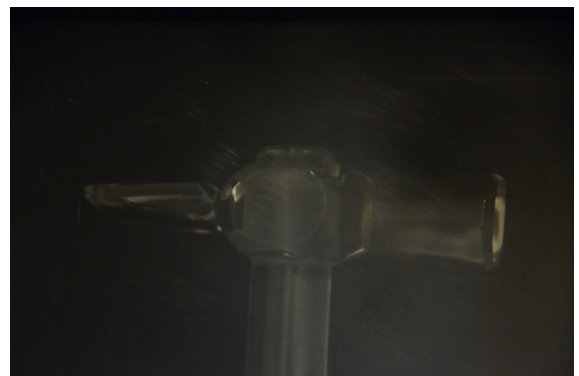

Yamazakur, glass, 11 in x 4 in

Shikishima, glass, 11 in x 6 in

Yamato, glass, 10 in x 4 in
